

OEM and In-Car Solutions

ParkMobile is the leading provider of smart parking and mobility solutions in North America, serving over 12+ million users. OEMs leverage ParkMobile APIs to provide a better parking experience, enabling drivers to easily reserve and pay for parking right from the center display unit of the vehicle.

What are the Benefits?

- ✓ 1,000,000+ parking spaces
- ✓ 400+ cities and municipalities
- ✓ All on-street parking in 41 of the 100 largest cities in the U.S.
- ✓ Parking reservations at event venues, airports, and gated garages
- ✓ First and only mobile parking payments provider to have integrations with two major OEMs

Functionality

Vehicle automatically detects nearby zone numbers and prompts the driver to start a parking session in the center display unit.

With one touch of the center display unit, a driver can quickly start a parking session.

Integration with ParkMobile allows a driver to extend parking time remotely from the app.

Drivers can reserve a parking spots at gated garages, event venues and airports from the center display unit.

In-car navigation system guides the driver directly to reserved spot at the garage.
