-  675 cities use ParkMobile as Merchant of Record today

...In fact, we process more transactions under \$10 than any other company in the U.S.

Why partner with ParkMobile for payment processing?

Overcome scalability challenges

Drive digital payment adoption while offloading the added operational and infrastructure complexity that comes with processing multiple payment types. ParkMobile seamlessly handles all aspects of payment management, from authentication to settlement, freeing up valuable time your team can use on more high-value tasks.

Improve customer experiences and support

Provide a more consistent and transparent payment experience that offers up a wider selection of popular payment choices for every customer. Maintain exceptional customer satisfaction without the added pressure thanks to ParkMobile's dedicated support team who are always ready to independently handle any issues.

Meet evolving compliance and security standards

Take advantage of emerging trends while reducing your overall compliance and security burden by partnering with a trusted specialist in secure payments. ParkMobile enables a smoother and safer digital transition with systems that are constantly updated to stay secure in the face of emerging threats and evolving regulatory requirements.

Gain visibility and simplify reporting

Get clear and accurate reports of expected revenue that include all valid transactions, voids, and refunds. With ParkMobile as your Merchant of Record, you can streamline your monthly remittance process with an easy-to-understand breakdown of parking transactions that can be easily matched up to your monthly report.

ParkMobile easily accepts multiple payment types:
